COMMUNITY M

Community M was born in June 2021 as an active network of organizations that works for and with people on the move in The Americas. This initiative is part of Project M to strengthen collaboration and coordination of allies of the Migration Program promoted by HIP.

The community meets once a month and uses social technologies to share challenges and learnings and discover new ideas around migration in the region. In those meetings, we decided to co-create this booklet as a small guide that tells who we are, our impact in the world and the conversations that we have promoted with the wish to inspire other people and organizations to join this collaborative journey.
